

ULTIME

Design by
Philippe Nigro

Description

In Utime, Philippe Nigro has designed a bed which is very welcoming in appearance and instantly evocative of great comfort. Viewed in profile, as welcoming as it may be, the slender line of the headboard, suspended above the floor, is no less remarkably light and dynamic thanks to its spindle shape, like a flame arching towards the heavens. The Utime bed successfully achieves the feat of being generous, soft, welcoming and very comfortable, while giving an extreme impression of lightness: like going to sleep on a cloud each night!

Technical Specifications

CONSTRUCTION
Structure in tubular steel and panels of multiply. Structure clad polyurethane foam 50 kg/m3 - 3.9 kPa clad in 110 g/m² quilting. Legs in tubular steel ? 1½"/4 cm finished in satin black lacquer, H 4"/10 cm or 6"/15 cm.
