

QUILLE

Design by

Inès le Bihan & Thomas Droze

Description

Quille is an airy table lamp which throws light over more than a metre. Its shadows are gentle and its light is particularly suitable to working at a screen or for passionate readers. In stable equilibrium, it occupies as much space as a pen on the table on which it rests.

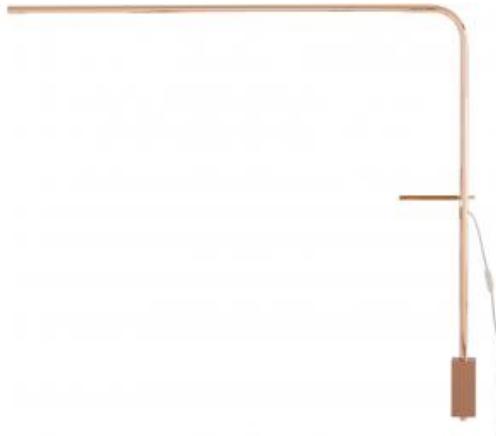

Light with copper-plated tube Ø 20 mm and cast metal counter-weight (H 13.5 x 6 x 6 cm) finished in ribbed Epoxy copper lacquer. The support stem is covered in natural leather. This light is equipped with a 90 cm LED ribbon giving a total power of 13 W and giving off 970 Lumens or the equivalent of a 75 W incandescent bulb. Colour temperature 3,200 K (warm white). Transparent PVC cable and manual switch. Plug-in LED driver supplied with interchangeable plugs (Euro, UK, US). The same version runs on both 220 V and 110 V.
